

EE 491 Weekly Report

Date: 2/20/17

Group number: DEC1722

Project title: PollUp™

Client &/Advisor: Dr. Ponpandi

Team Members &/Role: Neil Saigal, Leader

○ Weekly Summary

This week, I fully implemented repeating polls into iOS and fixed the bugs with it. This was quite time intensive and my progress was slowed down by me having the flu.

○ Past week accomplishments

- Neil:

○ iOS:

- Implemented repeating polls
- Fixed automation bugs
- Faster loading time for polls in Feed
- Added anonymous polls, repeating polls indicator icons to Feed
- Fixed bugs in some APIs
- Skype call with web dev team to help them implement Intercom chatbox with custom attributes

○ Android

- Worked on login screens
- Updated wireframe, will review with advisor

○ Pending issues

- Neil:

- ❖ Met with lawyer last week, he is putting together EULA
- ❖ Need to sign off on NDA agreement with all parties

○ Individual contributions

<u>NAME</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
Neil		9	53

○ Comments and extended discussion

○ Plan for coming week

- Neil:
 - ❖ Finish login implementation for Android
 - ❖ Meet with Dr. Ponpandi!
 - ❖ Finish EULA business/add to app and submit to app store
 - ❖ More repeating testing on iOS
 - ❖ Start working on hamburger menu implementation for Android

○ Summary of weekly advisor meeting

Pushed back meeting another week due to influenza.
